

# RETHINK ABORTION

**URGE YOUR TD TO RETHINK ABORTION.**

The government is currently undertaking a review of the abortion legislation - and are seeking public submissions.  
**YOUR VIEW MATTERS.**

**#RETHINKABORTION**

## The review of the abortion law must face up to these shocking outcomes. The TDs and the public should #RethinkAbortion

- **REDUCE the skyrocketing abortion rate:** 6,666 in 2019 - with a horrifying total of 13,243 abortions in just two years. So much for abortion being 'rare'. We know that 2,000 women sought support after abortion in 2020 - would they have preferred a real choice?
- **STOP Late Term Abortions:** A 2020 report\* confirms late-term abortions are happening in Ireland - and doctors worry about being left "begging for help" for babies who survive abortion. We were told this would never happen. It must stop.
- **KEEP the 3-day waiting period:** Figures released to Carol Nolan TD suggest almost 900 women changed their mind in those 3 days and did not continue with abortion. Most people want FEWER not MORE abortions.
- **NO Disability Abortion:** Campaigners want to extend the law so that MORE babies with disabilities can be aborted. This is lethal discrimination and must be opposed.
- **STOP pressuring parents to abort:** In the shocking NMH case, a baby was aborted after a misdiagnosis. This must not happen again.

Many people, including many who voted Yes, are horrified at these outcomes. **The Abortion Review should urge many people to rethink the abortion regime and demand change.**

**URGE YOUR TDS TO #RETHINK ABORTION - AND MAKE YOUR SUBMISSION.**
